

AUSTRALIA'S 5G ROLLOUT

How will it affect you?

5G HAS NOT BEEN SAFETY TESTED

5G is currently being rolled out across all major Australian towns & cities. There have been NO studies measuring the long term health and safety implications of the technology.

HIGH LEVEL EMF EXPOSURE

Our exposure limits are 100 TIMES HIGHER than European health & safety standards. 5G will result in towers & antennae every 100-500 metres which means you & your family can't escape being exposed to these EMFs.

CHILDREN ARE AT MOST RISK

Children can absorb up to 60% more radiation than adults. Wireless is a class B carcinogen according to the World Health Organisation (WHO).

Are you aware of the serious health effects of 5G?

AN IMPORTANT THREAT TO HUMAN HEALTH

Repeated studies show that Wi-Fi causes oxidative stress, sperm/testicular damage, neuropsychiatric effects inc. EEG changes, apoptosis, cellular DNA damage, endocrine changes & calcium overload.

NEUROPSYCHIATRIC EFFECTS

Studies show that microwave frequency electromagnetic fields (EMFs) produce widespread neuropsychiatric effects including depression.

10,000+ PEER REVIEWED STUDIES SHOW EMF EXPOSURE IS ASSOCIATED WITH:

increased risk of cancer, tumours, insomnia, lowered immunity, DNA damage, disruption of cell metabolism, increased anxiety & depression, nosebleeds, dizziness, headaches and long term memory loss

WE WANT THE AUSTRALIAN GOVERNMENT & ARPANSA TO DO THE RIGHT THING BY HALTING THE ROLL OUT OF 5G UNTIL APPROPRIATE TESTING IS CONDUCTED TO DEMONSTRATE THE SAFETY OF THIS TECHNOLOGY
